REGIONAL URBAN DESIGN GUIDELINES (RUDG) TASK FORCE MEETING

10:00 a.m., Tuesday, March 29, 2016, *FORA Conference Room*

AGENDA

1. **CALL TO ORDER**

2. **PLEDGE OF ALLEGIANCE**

3. **ACKNOWLEDGEMENTS, ANNOUNCEMENTS AND CORRESPONDENCE**

4. **APPROVAL OF MEETING MINUTES**

a. February 25, 2016

5. **PUBLIC COMMENT PERIOD**

Individuals wishing to address matters within the Committee's jurisdiction, but not on this agenda, may do so during this period for up to three minutes. Comments on a specific agenda item, are heard under that item.

6. **BUSINESS ITEMS**

a. Draft RUDG content review/edit/recommendations

ACTION

i. Wayfinding

ii. Landscaping

iii. Checklist Review

b. Draft RUDG upcoming items review/discussion

INFORMATION/ACTION

i. Gateways

ii. Cross-sections

7. **ITEMS FROM MEMBERS**

8. **ADJOURNMENT**

NEXT MEETING: 1:00pm Thursday April 14

For information regarding items on this agenda or to request disability related modifications and/or accommodations please contact the FORA office 48 hours prior to the meeting.

Agendas are available on the FORA website at www.fora.org.

FORT ORD REUSE AUTHORITY
REGIONAL URBAN DESIGN GUIDELINES (RUDG) TASK FORCE
MEETING MINUTES

9:30 a.m., Friday, February 25th, 2016

920 2nd Avenue, Suite A, Marina CA 93933 (FORA Conference Room)

1. CALL TO ORDER

Co-chair Victoria Beach called the meeting to order at 9:35 a.m. The following were present:

Committee Members:

Victoria Beach, City of Carmel-by-the-Sea
Elizabeth Caraker, City of Monterey
Diana Ingersoll, City of Seaside
Layne Long, City of Marina
Anya Spear, California State University Monterey Bay (CSUMB)

Brian Boudreau, member of the public
Wendy Elliott, Dunes at Monterey Bay
Bob Schaffer, member of the public
Beth Palmer, member of the public
Jane Haines, member of the public

Other Attendees:

Kathy Biala, Marina Planning Commission
Grace Bogdan, Monterey County
Robert Guidi, Department of the Army (POMDWP)
Craig Malin, City of Seaside
Steve Matarazzo, University of California Monterey Bay Education,
Science and Technology Center (UCMBEST)
Virginia Murillo, Transportation Agency of Monterey County (TAMC)
Vicky Nakamura, Monterey Peninsula College
Tim O'Halloran, City of Seaside

FORA Staff:

Michael A. Houlemard, Jr. (Chair)
Steve Endsley
Josh Metz
Jonathan Brinkmann
Mary Israel
Ted Lopez
Jen Simon

2. PLEDGE OF ALLEGIANCE

Victoria Beach led the pledge of allegiance.

3. ACKNOWLEDGEMENTS, ANNOUNCEMENTS AND CORRESPONDENCE

None.

4. APPROVAL OF MEETING MINUTES

a. December 16, 2015 Minutes and February 5, 2016 Minutes

MOTION: Diana Ingersoll moved, seconded by Layne Long, to approve the December 16, 2015 and February 5, 2016 RUDG Task Force meeting minutes.

MOTION PASSED UNANIMOUSLY.

5. PUBLIC COMMENT PERIOD

None.

6. BUSINESS ITEMS

a) DRAFT RUDG content review/update

Economic Development Coordinator, Josh Metz presented a working draft of the RUDG website and hardcopy. He reviewed new content: "Objectives" and "Measures," and an expanded "Definitions" section and he illustrated how language in the RUDG December 2015 Draft was extracted from "Purpose" and "Intent" Guideline sections to go into the three areas.

Beth Palmer asked how the website would be timestamped. Several Task Force members clarified that the website would match a time-stamped document version of the RUDG and both would be approved by the FORA Board of Directors (Board).

Mr. Metz shared that the staff and RUDG Task Force volunteers spent a few days comparing the RUDG "Objectives" and "Measures" with three major on-site project guidelines. Kathy Biala asked what staff did to reconcile discrepancies. Mr. Metz explained that staff incorporated elements of project guidelines if they strengthened the RUDG, and that no conflicts were found. Outstanding Measures and Objectives content was identified and included in remaining staff and/or consultant tasks.

Ms. Biala about a RUDG consistency determination Checklist. Mr. Metz answered that the Checklist is being refined to match the Measures, and staff is leaning toward a Yes/No answer for each measure; a comment area for measure sets where planners can list their alternative approaches that meet the Objectives would also be included.

Mr. Metz reviewed refinements made to the Introduction:

- a) Overview-- includes reference to Authority Counsel memorandum on RUDG legal framework,
- b) How to Use These Guidelines-- defines Objectives and Measures and how they will function in plan/project BRP consistency evaluations, and
- c) Policy Application-- clarifies Base Reuse Plan (BRP) priority in case of any RUDG omissions or conflicts.

Steve Matarazzo suggested that (b) include a sentence that offers "other solutions may be applicable" and Victoria Beach said "not exhaustive" be added as well. Michael Houlemard clarified that the process for consistency determinations is not going to change; jurisdictions are going to use the guidelines and the review of projects will go to FORA Planning Department, then the Administrative Committee for review, then to the Board.

Mr. Metz reviewed the updated Definitions section and asked the Task Force to send any other words found in the text that should be defined, as well as ideas on how to improve the current definitions.

Mr. Metz asked the Task Force whether the cross sections for roads should be retained as samples or become Measures. The Task Force requested a detailed look at consultant-provided cross sections and those in the BRP, then bring back a recommendation. Ms. Ingersoll said to also find consistency between the FORA guideline draft and City of Seaside's understood guideline for regional circulation corridors. Ms. Elliot suggested staff look at the Dunes at Monterey Bay road designs.

In the discussion of landscaping palette, the Task Force supported hiring a consultant. Anya Spear noted CSUMB has faced challenges establishing durable plantings. Mr. Long said "all native" leads to a bland landscape, and should be broadened to low-water with a balance of native and introduced species for year-round color. He requested a specific plant list that is a

subset of area jurisdictions' commonly broad landscape palettes. Ms. Beach suggested instructions on layout, such as density, height and placements. Ms. Biala said that Marina has a 60% native requirement and an ecosystem approach. Ms. Beach added that the issue of maintenance could be included, watering regimes and what it is to look like. Ms. Elliot said the palette could be limited and specific to different micro-climates on former Fort Ord, including height and mass suggestions, but leave the maintenance and layout to the designers. Mr. Houlemard stated that maintenance is not a RUDG issue. However, Ms. Spear asked for the plant lists to be segregated by "easy to maintain" and "easy to kill" for each microclimate. Ms. Beach said the BRP also suggested reuse of water and that swales and irrigation with reclaimed water are implied by the BRP. These suggestions should go to a familiar and local consultant to put the lists together.

The next RUDG meeting is tentatively set for March 23, 2016 at 9:30 a.m.

7. ITEMS FROM MEMBERS

None.

8. ADJOURNMENT

Meeting was adjourned at 11:05 a.m.

Building Orientation, Types, Setbacks, & Heights	11
Landscaping: Palettes & Lighting	12
Signage: Gateways & Wayfinding	13
Public Spaces	14
Centers	15

Purpose

This checklist provides a tool to evaluate Legislative Land-use Decision (LLD) and Development Entitlement (DE) compliance with the FORA Regional Urban Design Guidelines (RUDG) for Town & Village Centers, Gateways, Regional Circulation Corridor, and Trails.

How to Use This Checklist

It is incumbent upon jurisdictional staff to represent that a project/plan and/or entitlement is consistent with the 1997 Base Reuse Plan (BRP). This checklist is one component of the complete set of evaluation criteria used to determine BRP consistency.

This checklist provides discrete Measures for each of the RUDG. In order to increase planning efficiency, this checklist can be used at the earliest planning stages, as well as when to complete final consistency determination documents.

Use the RUDG Locations maps to locate your project/plan area and determine potential applicable guidelines. The Checklist includes Measures for each Guideline and is the basis for explicit plan or project evaluation. If Measures are not implemented directly, describe how the Objectives are being met or if alternatives are required and why. For each Measure include a page reference to the plan/project document section that addresses that Measure. Indicate (using N/A) cases where the potential applicable guidelines are not applicable, and provide additional Notes for clarification.

Ensure the following components are included in the consistency determination submittal:

1. **Project Information Form** (*provided in next page*)
2. **Site Plan:** showing significant features including building locations (with heights identified in text), driveways, drive aisles, garage entrances, or parking areas. Site plans with more than one building, street or public space should label each building with a letter, number, or name.
3. **Preliminary Building Elevations:** showing heights, window and door locations, and any special appurtenances or details.
4. Other relevant information requested by FORA.

Review Procedure

FORA staff will review each LLD and DE for RUDG compliance. Each Guideline sets forth Objectives and Measures. Objectives are implemented through the Measures (and/or other means) and are used, along with the Measures, by FORA to make consistency determinations. Measures are the quantitative basis for jurisdiction and FORA staff BRP consistency evaluations.

Project Information Form

To be completed by the local jurisdiction/ applicant. If the proposed project is not on a single contiguous lot or parcel of land, please complete a separate Project Information Form for each contiguous property.

Guidelines

Complete Streets

Objectives			
<ul style="list-style-type: none"> Encourage development pattern that mixes uses horizontally and vertically for active streetscape (BRP p.65). Encourage scale and pattern of development which is appropriate to a village environment and friendly to pedestrians and cyclists (BRP p.65). Minimize the scale of streets to facilitate pedestrian movement while providing adequate circulation and parking opportunities (BRP p.66). Promote a sense of community and connectedness in new neighborhoods by minimizing street widths, providing comfortable pedestrian environments, and encouraging housing design which embraces the public street area (BRP p. 67). 			
Measures	YES	NO	NOTES
1. Continuous sidewalks on both sides of street			
2. Space provided along sidewalks for a variety of activity zones on retail or mixed-use blocks			
3. Sidewalks ≥ 10 feet wide, maintain a minimum clear path of 5', on retail or mixed use blocks with furniture, trees, lighting			
4. Sidewalks ≥ 5 feet wide on all other blocks, with furniture, trees, lighting at appropriate intervals			
5. Durable, drought-tolerant street trees to provide shade within 10 years			
6. On-street parking on both sides of streets			
7. Parking lots, garages, or service bay openings not facing regional corridors			
8. Low-speed street design, ≤ 25 mph in Centers			
9. Outer access lanes for slower speeds and through-lanes for faster speeds on multi-way boulevards with medians			
10. Pedestrian crosswalks installed at intervals < 800 feet on multi-way boulevards with medians			
<p><i>Describe additional actions used to meet <u>Complete Streets</u> Objectives (attach additional pages as needed):</i></p>			

Connectivity

Objectives			
<ul style="list-style-type: none"> • Link new neighborhoods to surrounding cities' development fabric (BRP p.62). • Create strong physical linkages from villages to CSUMB and other major activity areas (BRP p.66). • Reinforce linkages among existing neighborhoods and establish linkages to new neighborhoods and village centers (BRP p. 67). • Connect new residential neighborhoods via continuous streets and/or open space linkages to surrounding neighborhoods and districts (BRP p. 67). • Connect individual open space parcels into an integrated system for movement and use of native plant and animal species and people (BRP p. 13). • Ensure open space connections link major recreation and open space resources (BRP p. 71). 			
Measures	YES	NO	NOTES
1. Local roads free of dead-ends and cul-de-sacs			
2. New streets connect to adjacent streets			
3. Streets end with street stubs to provide future street connections			
4. Maximum block perimeter 2,400 linear feet			
5. Minimum 140 intersections per square mile			
6. New streets with minimal street bends to minimize block length/travel distances			
7. Complete streets developed where Regional Corridors enter Centers			
8. Trail, pedestrian and transit facilities connect centers, public open spaces, educational institutions and other relevant locations			
9. Open space areas connect to allow movement of native plants, animals, and people			
10. Major former Fort Ord recreation and open space assets connected to each other and adjacent regional resources			
<p><i>Describe additional actions used to meet <u>Connectivity Objectives</u> (attach additional pages as needed):</i></p>			

Trails

Objectives			
<ul style="list-style-type: none"> • Establish trail system for non-motorized transit alternatives to former Fort Ord neighborhoods (BRP p.136). • Design the trail system to reinforce the BRP strategy of using recreation and open space assets to make the former Fort Ord attractive to potential users by interconnecting and increasing access (BRP p.137). • Reserve adequate Right-of-Way (ROW) along planned transportation corridors to accommodate planned trails in addition to the entire planned road cross section (BRP p.137). • Design the Fort Ord trails system as an integral part of a larger regional trails network which includes, but is not limited to, the Toro Regional Park trails, existing and proposed Carmel Valley trails, the existing Highway 68 corridor (used as a bike route) (BRP p.137). • Link former Fort Ord trails to regional bike/pedestrian trails wherever possible (BRP p.137). 			
Measures	YES	NO	NOTES
1. Major trail width ≥ 12'; Minor trail width ≥ 10'; Equestrian trail width ≥ 20'			
2. New trails connect to existing networks as coordinated with local jurisdiction planning			
3. Former Fort Ord trails connect to regional networks			
4. Multi-use and segregated trails, eg. equestrians and hiker/bikers, provided to accommodate variety of user types			
5. Regional viewsheds and nature experiences maximized			
6. Trail alignments pass through and link Town & Village Centers			
7. TAMC regional wayfinding signage and/or local design standards utilized			
8. Major trailheads sited along Fort Ord National Monument and Fort Ord Dunes State Beach open space access points and feature bathroom facilities and signage			
9. Trails separated from roads wherever feasible			
10. Former Fort Ord trail system linked to regional bike and pedestrian trails such as the Monterey Bay Sanctuary Scenic Trail			
<p><i>Describe additional actions used to meet <u>Trails</u> Objectives (attach additional pages as needed):</i></p>			

Transit Facilities

Objectives			
<ul style="list-style-type: none"> • Sustain a transit and pedestrian friendly development pattern. The core of each village will consist of services and amenities for districts and neighborhood, from retail and service establishments to transit stops and parks (BRP p. 59). • Link villages by transit routes and open space corridors suited for cycling and walking (BRP p. 59). • Locate concentrations of activity and density along future transit rights-of-way (BRP p. 63). • Provide transit accessibility at major development sites by orienting highest concentrations of activity along transit rights-of-way and providing easy pedestrian access to these points (BRP p. 70). • Locate transit hubs within walking distance of gathering spaces, news stand access, cafes, convenience stores, orientation to surroundings, public restrooms, shelter, bicycle storage, and/or internet connectivity to create/enhance neighborhood identity 			
Measures	YES	NO	NOTES
1. Transit stop within ¼ mile of all homes			
2. Transit stops adjacent to mixed use, schools and commercial areas			
3. Academic and nature themes used for design identity			
4. Regionally common architectural style applied			
5. Color and graphic design link vehicles to stops/stations			
6. Shelter, seating, route information and lighting provided at transit hubs			
7. Connectivity with pedestrian, cyclist, and vehicular transportation maximized			
8. New transit facilities (hubs, transfer points, and bus stops) and routes meet Monterey-Salinas Transit (MST) design guidelines and Americans with Disabilities Act requirements			
9. Routing and facilities planning coordinated with MST and jurisdictions			
10. Transit stops provided near neighborhoods, schools and commercial centers			
<p><i>Describe additional actions used to meet <u>Regional Transit Facilities Objectives</u> (attach additional pages as needed):</i></p>			

Highway 1 Design Corridor

Objectives			
<ul style="list-style-type: none"> • Signage and their support structures preserve views of sky, ocean, dunes and ridgelines. • Signage is stationary and not changing, flashing or animated. • Prohibit the use of billboards in the Highway 1 Corridor. • Preserve landscape character of the Highway 1 Design Corridor as a buffer between the Highway 1 right-of-way and development. • Except as noted in the Highway 1 Corridor Design Guidelines, “establish a maximum building height related to an identified mature landscape height to accommodate higher intensity land uses appropriate to this location without detracting from the regional landscape character of the State Highway 1 Scenic Corridor.” 			
Measures	YES	NO	NOTES
1. Signs mounted on buildings below 40’ and eave or parapet line			
2. Sign illumination and glare minimized - Down lighting utilized			
3. Sign support structures for all freestanding signs located outside 100’ Caltrans right-of-way setback and additional 100’ off-ramp and on-ramp setback at Lightfighter Drive and Imjin Parkway			
4. Base of signs designed to blend with coastal dune character (i.e. earth-tone colors tan, brown, forest green, gray or dark blue)			
5. Marina: Building heights limited to 40’ maximum, with exception of optional heights designated in the Marina General Plan OR Seaside: Buildings in excess of 40’ tall may be built at the Main Gate, where regional retail use is permitted by the BRP and Seaside General Plan, if it is determined by the Seaside City Council that said taller buildings will serve as attractive landmarks and/or enhance the economic development prospects of this area.			
6. Buildings and signs located outside 100’ Caltrans right-of-way			
7. Average 25’ landscape setback provided along Highway 1 to accommodate and protect mature trees			
8. Trees (≥ 6” trunk diameter and in reasonable condition) preserved within 25-feet of Caltrans right-of-way and at gateways			
9. Bikeway and pedestrian path linkages to public open space incorporated			
10. Future public facilities such as a water pipeline infrastructure and a visitors center allowed in Highway 1 Corridor west of Highway 1			
<p><i>Describe additional actions used to meet <u>Highway 1 Design Corridor Objectives</u> (attach additional pages as needed):</i></p>			

Building Orientation, Types, Setbacks, & Heights

Objectives			
<ul style="list-style-type: none"> • Provide design guidelines to address architectural qualities, building massing and orientation, parking, fencing, lighting, and signage (BRP p. 154). • Orient buildings to ensure public spaces have natural surveillance, enhance sociability where people know their neighbors, and promote walking by providing safe, appealing, and comfortable environments. • Implement the BRP mixed-use development vision. • Encourage establishment of life-cycle or multi-generational neighborhoods with a variety of building types that allow residents to trade-up or downsize their homes. 			
Measures	YES	NO	NOTES
1. Principal building facades parallel or tangent to front lot lines			
2. Buildings face either street, public spaces, or thoroughfares designed to accommodate the most pedestrians; secondary entrances on sides or rear facades			
3. Fronts of buildings face fronts or sides of other buildings			
4. Parking lots, garage doors, service entrances and blank walls not facing street			
5. Multiple buildings clustered and design elements used to transition from large building masses to human scale			
6. Three or more of the following building types included: <i>Single Family House, Accessory Dwelling Unit, Cottage, Duplex, Apartment House, Courtyard Apartment, Townhouse, Mixed-Use Building, Corner Store, Small Market/Gas Station, Park-Under Building, Large-Footprint Building</i>			
7. Residential front setbacks up to 25'; side setbacks 5' except Townhouses (0'), Courtyard Apartment Bldg. (15'); Single Family, Accessory Dwelling Unit, Duplex, Cottage setbacks variable; rear setbacks are set for Apartment House (65'), Courtyard Apartment Bldg. (15'), Park-Under Bldg. (5'); others variable.			
8. Residential heights up to 2.5 stories except Park-Under Bldgs., Townhouses, and Apartment Bldgs. (≤ 3.5 stories); lot frontage under 80' except Apartment Houses, Apartment Buildings			
9. Commercial front setbacks vary: 25' and up large-footprint bldg., 5'-25' Park-Under Bldg., 0-5' all others; side and rear setbacks vary: 25' and up large-footprint bldg., 0 side and 18' rear Convenience Stores, 5' Park-Under Bldg., others variable			
10. Commercial heights up to 2.5 stories except Park-Under Bldgs. (2-3 stories); lot frontage at least 40 feet except for convenience store (20'-40')			
Describe additional actions used to meet <u>Building Orientation, Types, Setbacks & Heights Objectives</u> (attach additional pages as needed):			

Landscaping: Palettes & Lighting

Objectives			
<ul style="list-style-type: none"> The visual character of the Monterey Bay Region is greatly determined by the quality of the natural and introduced landscape pattern and materials. The former Fort Ord encompasses a vast area which ranges from coastal sand dunes to oak woodlands and maritime chaparral As the former Fort Ord will be developed over time, major vegetation and landscaping should be introduced or enhanced in development areas to create or strengthen an inviting and pedestrian scale environment, and to integrate the site as a whole into the larger Monterey Bay Region environment (BRP p. 71). Establish a pattern of landscaping of major and minor streets, including continuous street tree plantings to define gateways to the former Fort Ord and enhance the visual quality and environmental comfort within the community (BRP p. 71). Enhance physical appearance of existing neighborhoods with street and landscaping treatments (BRP p. 67). Provide appropriate illumination to meet community orientation and safety needs to compliment architectural aesthetics and the surrounding coastal environment. Maximize community sustainability by using energy efficient fixtures and programming. 			
Measures	YES	NO	NOTES
1. Environmental quality and biodiversity of the Monterey Bay region preserved and existing healthy trees integrated into landscaping			
2. Native vegetation used to fill in gaps between trees			
3. Low-water plant species serving a variety of needs (shade, soil conservation, aesthetics) used			
4. Conforms to RUDG plant palette (<i>pending</i>)			
5. Pedestrian-scaled fixtures in walkable areas, height ≤ 15'			
6. Lighting coordinated with sidewalk entourage			
7. Transit stops, edges, and focal points well-lit			
8. Energy-efficient lamps			
9. Pole lights illuminating streets with shielded light source directing light			
10. Lamp style uniform within blocks, neighborhoods, corridors and coordinated with sidewalk entourage			
<p><i>Describe additional actions used to meet <u>Landscaping Objectives</u> (attach additional pages as needed):</i></p>			

Signage: Gateways & Wayfinding

Objectives			
<ul style="list-style-type: none"> • Create defined and discernible community form, distinctive within the larger Monterey Bay Region, but/and compatible with form and character of other Monterey Bay Region communities. • Create distinctive and memorable entries to the area. • Assure that the 8th Street Bridge serves as a major gateway to the Fort Ord Dunes State Park (BRP p. 154). • Provide consistently identifiable and informative wayfinding signage to support efficient and safe resident and visitor movement. • Incorporate regional wayfinding signage that also provide for unique jurisdiction and community identities. • Promote connectivity between communities and encourage connectivity to regional destinations, such as parks, trails, educational institutions, employment centers, transit, park and ride lots, and tourist destinations. • Create safer pedestrian and bicyclists facilities by using wayfinding signage to make bicycle and pedestrian routes more visible. 			
Measures	YES	NO	NOTES
1. Wayfinding signage that signifies former Fort Ord and academic reuse			
2. Monument signage, architectural features, roadway surface materials, and interpretive facilities marked with distinctive design elements			
3. Edges and boundaries clarified			
4. Entryways welcoming, well-designed and varying in scale			
5. Wayfinding signage clear and legible to the intended audience (i.e. pedestrians, cyclists, motorists, equestrians)			
6. Regional wayfinding identity incorporated, allowing for unique jurisdiction/community identity			
7. Seamless connection between RUDG Locations provided			
8. Ensure signage is placed in accordance with the regulatory requirements spelled out in the California Manual on Uniform Traffic Control Devices			
9. Signage is coordinated with regional agencies and other jurisdictions			
10. Signage is clear and safely placed			
<p><i>Describe additional actions used to meet <u>Signage</u> Objectives (attach additional pages as needed):</i></p>			

Public Spaces

Objectives			
<ul style="list-style-type: none"> Establish an open space system to preserve and enhance the natural environment and revitalize the former Fort Ord by adding a wide range of accessible recreational experiences for residents and visitors (BRP p. 17). Ensure that open space connections link major former Fort Ord recreation and open space amenities and adjacent regional resources (BRP p. 71). Provide a generous pattern of open space and recreation resources through public facilities and publicly accessible private development (BRP p. 71). Use spaces between buildings to establish outdoor public uses. Coordinate public space development through specific plans or other planned development mechanisms to achieve integrated design between public and private spaces. 			
Measures	YES	NO	NOTES
1. Public spaces within walking distance of every home: ¼ mile to plaza, ½ mile to square, green or park			
2. Civic buildings in prominent location (i.e. ends of street, tops of hills, land adjacent to parks)			
3. Landscaping, hardscaping, lighting, signage, furniture, and accessory architecture use coherent palette and design elements			
4. Urban-type public open spaces (playground, plaza, square) in or close to Centers and/or enclosed by buildings			
5. Rural-type public open spaces (green, park) closer to the edge of development			
6. Rural-type public open spaces as well as community gardens, playing fields open and un-bounded by buildings on most edges			
7. Public open space opportunities provided in higher density centers			
8. Public open space in close proximity to transit centers and trails			
9. Access to public spaces facilitated through coordinated public facilities (parking, streets, transit)			
10. Civic buildings in prominent locations near or in centers			
<p><i>Describe additional actions used to meet <u>Public Spaces Objectives</u> (attach additional pages as needed):</i></p>			

Centers

Objectives

- Town and village centers have identifiable centers and edges; walkable sizes; a mix of building types; an integrated network of walkable streets; and special sites reserved for civic purposes.
- Former Fort Ord centers will feature concentrated activity and will be located in the vicinity of the CSUMB campus, within the jurisdictions of Marina and Seaside, and capitalize on the inherent campus vitality.
- Centers should complement university amenities, such as performance and athletic facilities with cafes and restaurants, shops and other student and local-serving uses.
- Centers will maintain the fine-grained development pattern of the existing areas of the Main Garrison and contain the highest retail, office and housing density on the former Fort Ord and will be developed with a pedestrian orientation and ready access to transit opportunities (BRP p. 63-65).

Measures

	YES	NO	NOTES
1. Functional and attractive retail storefronts with at least 80% of ground floor within 5' of front property line			
2. Un-tinted transparent storefront windows at least 60% of wall area between 3' and 8' above sidewalk facing street			
3. Maximum average block perimeter ≤ 1,600' with street intervals ≤ 500' apart along any single stretch			
4. Storefront windows extend 8' to 14' above the sidewalks			
5. Entrances at least every 50' along the length of storefronts			
6. Storefronts augmented by awning, arcade or marquee			
7. Schools, recreation facilities, and places of worship are embedded within community or within walking distance			
8. Civic buildings are located on high ground, adjacent to public spaces, within public spaces, or at the terminal axis of a street or long view to increase their visibility			
9. Provide lighting and trees in a pedestrian safety and comfort enhancing layout			
10. On-site parking shared between uses with different peak hours			

Describe additional actions used to meet Centers Objectives (attach additional pages as needed):
