FOREWORD

The Fort Ord Reuse Plan Reassessment Scoping Report was prepared to present background information about the reuse of Fort Ord, a summary of events transpiring at the former Fort Ord since adoption of the Fort Ord Reuse Plan, findings of the Market Study, and public input on the Fort Ord Reuse Plan Reassessment. The public draft of the Scoping Report was released for public review on August 15, 2012, and comments were received through the October 12, 2012 Fort Ord Reuse Authority Board meeting.

Two addenda to the scoping report were prepared, and the Fort Ord Reuse Authority Board received the Scoping Report, as amended by the addenda, at the October 12, 2012 meeting. Also at the October 12, 2012 meeting, several Board members requested that changes or additional information be included in the final Scoping Report. This is the final version of the Scoping Report, and includes changes reflected in the addenda and changes as directed by the FORA Board.
