c. Fort Ord Reuse Authority Prevailing Wage Program
Chair O’Connell stated this item was pulled off agenda and will be continued to next meeting. However, Board elected to receive public comments on this item.

Matthew Miller a Labor compliance investigator said violations regarding certified payrolls on framing work show that correct wages were not paid. These workers come from long distances and they were denied lunch and rest periods on a regular basis and that no information was provided to workers and they need to still be compensated.

Oscar Mendoza stated he worked for Erickson Framing Construction on the East Garrison project. He said he was required to pay for his health insurance. Yet, when he saw the doctor he was told he had no insurance. Mr. Mendoza was paid $6/hr yet, he paid more than $4,000 for this insurance which he was never able to use. He said he received no information about his rights and pay from labor compliance.

Rosendo Friday. Worked for CVC at East Garrison and said he arrived at 4:30 a.m. worked 8 hrs no lunch no rest; no reimbursement for round trip (6 hrs total) to Fresno and back. Food had to be purchased along the way and he never got reimbursed. He added that it would have been nice to be paid in order for him to hire a person to care for his disabled son.

Ivan Hernandez said he works for CBC and has same problem. He was told if he wanted to work, he need to drive his vehicle for around 6 hrs that he never got compensated for. His wife had to leave her employment because he was not available to get kids to school. He thanked investigators for their work.

Jose Alcantar introduced himself with same issues as he worked on same company. He wakes up at 3 a.m. to get ready and arrive at 4:00 to be picked up and be brought to work; there are no rest periods and the pay received was $13.68/hr. He is not compensated for his total travel time of 6 hrs, that there is wear and tear on vehicle; the cost of gas; and that this is the equivalent of another part time job and he could be spent with his family. He added that no compliance person was ever present at the site, that companies abuse employees and “if employees need work, they have to take the abuse in order to get the job.”

Maurice Belarde said contractors (plumbers) cheat on projects on Ft Ord. People are sleeping on parked vehicles while the projects are built illegally, and not up to code. Project workers agreements he requests they be looked into.

Board received additional comments from other members of the public.

The fee goes into Capital Improvement Program revenues then eventually to FORA.
