Ron,

Just let me know how many IUPAT members you'll need for this event. I'll be sure to let our political director Madison Hull know so she can post it to District Council 16's website.

MCBC - We find this very interesting. You will be holding a luncheon at a hotel which has had numerous problems in its development. To date, there are contractors and workers that have not been fully paid for their work on the hotel. FORA rules have been ignored. Provisions of a Settlement Agreement have not been observed. This is not a good example of how economic development and business should take place in our community. In our opinion this is a poor choice for an organization like the MCBC to celebrate anything. Therefore, in honor of this Grand Event, where would you like us to place the demonstrators?

As an Ord Community ratepayer, I strongly urge the FORA Board to endorse Marina Coast Water District as the GSA for the Ord Community. Salinas does not represent our area or our interests. We are part of MARINA and should be counted as such- we should also have a say in matters related to water rates and regulations, which we will not have if we are covered by a different city, where we cannot vote. It makes no sense to have us represented and regulated by a board outside our voting area.
