NOTES:

"RR" means corrections follow the Reassessment Report, where PRAC made no comment or merely reinforced the report correction.

"RR/PRAC beyond Cat I scope" means instances of PRAC-recommended modifications beyond the Reassessment Report corrections that involve changes that relate to past Board decisions and Category II updates and/or create inconsistency between the text and corresponding figures. In these instances, Reassessment Report directions were followed, but PRAC's were not.

"PRAC Cat I redirect" means instances of Reassessment Report corrections with PRAC comments that redirected corrections and remained within the scope of Category I work. In these instances, PRAC comments were followed as described.

"Staff-noted" means staff took note of occasional typographical, grammatical, or syntax errors that were not previously noted.

"Volume IV conformance" means, as noted in public comment during 2010 Monterey County General Plan Consistency Determination (Fall, 2013), staff corrected Volume II programs and policies to match Volume IV and provided tracking on the correction to source documents listed below.
