Fort Ord Reuse Authority (FORA) Board of Directors,

As a member of the public, I don't feel that the FORA Board makes it easy for me to be involved in decisions about the former Fort Ord — decisions about business development, housing, traffic, water, and habitat conservation that impact my life. At your next public meeting, I urge you to take two actions to facilitate public input:

1. Allow for general public comment at the beginning rather than the end of your meetings.
2. Move your monthly meetings from Friday afternoons to a Monday-Thursday evening.

Please put these items on at the beginning of your next agenda.

Sincerely,

Mike Horgan

Fort Ord Reuse Authority (FORA) Board of Directors,

Putting public comment last pretty much guarantees you won't hear from your constituency.
Please correct this problem as follows:

1. Allow general public comment at the beginning rather than end of your meetings.
2. Move your monthly meetings from Friday afternoons to a Monday-Thursday evening.

Please put these items on at the beginning of your next agenda.

Fort Ord Reuse Authority (FORA) Board of Directors,

I have been attending FORA word meetings for 8 years now. A few years ago the Chair (Rubio) decided to move the public comment period to the end of the meeting and the meeting was moved to an earlier time in the day. Both changes created major challenges for attending and speaking to the board. I want my opinions and information to be heard by the Board in whole and by the attending public.

As a member of the public, I don't feel that the FORA Board makes it easy for me to be involved in decisions about the former Fort Ord — decisions about business development, housing, traffic, water, and habitat conservation that impact my life. At your next public meeting, I urge you to take two actions to facilitate public input:

Fort Ord Reuse Authority (FORA) Board of Directors,

It is time for FORA to end and for the property subject to its authority to revert to the local jurisdictions where the property lies. FORA may have had some usefulness when it was formed, that time has long since passed. I fully support Senator Monning in his efforts to terminate FORA.

The FORA Board, aided and abetted by the staff, makes it difficult for the public to be involved in decisions about the former Fort Ord — decisions about business development, housing, traffic, water, and habitat conservation that impact the community at large. At your next public meeting, I urge you to take two actions to facilitate public input:

1. Allow for general public comment at the beginning rather than the end of your meetings.
2. Move your monthly meetings from Friday afternoons to a Monday-Thursday evening.

I also urge the Board and staff to start listening to the public and acting in the best interests of the public, not just the developers who can't stand to see an undeveloped piece of ground.

Sincerely,

James Tarhalla

Fort Ord Reuse Authority (FORA) Board of Directors:

As a member of the public residing in Del Rey Oaks, I feel that the FORA Board makes it extremely difficult for me to be involved in decisions about the former Fort Ord which neighbors my property. The Board's decisions about business development, housing, traffic, water, and habitat conservation impact my daily life.

At your next public meeting, I urge you to take the following two actions to facilitate public input:

1. Allow for general public comment at the **beginning** rather than the end of your meetings.
2. Move your monthly meetings from Friday afternoons to a Monday-Thursday evening to facilitate working members of the community's attendance at the meetings.

Please put the above two items at the beginning of your next agenda.

Thank you for your consideration.

Sincerely,

Katherine Harper-Beckett

Fort Ord Reuse Authority (FORA) Board of Directors,

The FORA could do a much better job of Inviting citizen input in decision-making about Fort Ord lands, the very lands on which development will impact daily lives.

Here are two actions you can take to facilitate public input:

1. Allow for general public comment at the beginning rather than the end of your meetings.
2. Move your monthly meetings from Friday afternoons to a Monday-Thursday evening.

To show that you respect and invite public input, I ask you to schedule these items at the beginning of your next agenda.

Sincerely,

Subject: Fix the Blight and Allow Public Input
Date: Wednesday, May 16, 2018 1:41:45 PM

Fort Ord Reuse Authority (FORA) Board of Directors,

My name is Alexandra Burke and I moved to Fort Ord when I was 2 years old after my father was stationed there with the Army in 1991. After my parents divorced, my mom decided to stay in the area and I have lived in Marina ever since. For the past 20+ years, little has changed, and when my Dad comes back to visit, showing him his former base is EMBARRASSING. The buildings and barracks my Dad worked in are still standing: rotten, deserted, ugly, and forgotten. The way the former Ft. Ord looks is a DISGRACE. Miles and miles of abandoned housing and buildings, that could have served MUCH better purposes. Sometimes when I drive through Ft. Ord I feel like i'm in the Twilight Zone, asking myself WHY nothing was ever done with this land. The university and some of the converted housing, etc. are SMALL changes in the grand scheme of things that do NOT justify the horrific mismanagement of this land. You have said in the past that it is up to Seaside and Marina to fix the blight, but don't you have members of both city councils on your board?? The only work I've seen from people like Ralph Rubio are horrible project ideas that only threaten the pristine wild areas of Ft. Ord instead of FIXING THE ALREADY DEVELOPED LAND THAT HAS BEEN SITTING THERE ABANDONED FOR 20 YEARS. As someone who grew up in Ft. Ord, I have a lot of ideas and opinions about it's future and would like to get more involved. However I am not able to make the meetings because of my work schedule. I also don't think FORA has been very transparent or open to input. The reports I have read about the board's blatant disregard for the public, and your use of misleading information, pretty much outright lies, in your official statements and reports makes me question who or what FORA is really serving.

As a member of the public, I don't feel that the FORA Board makes it easy for me to be involved in decisions about the former Fort Ord — decisions about business development, housing, traffic, water, and habitat conservation that impact my life. At your next public meeting, I urge you to take two actions to facilitate public input:

In addition, I would like to suggest alternatives to building new roads that just get filled up with more cars and repeat the need for more roads. It is imperative that large employers start taking responsibility for mitigating traffic congestion by providing car pooling vans for their employees. I hear the representative of the hospitality industry complain about how their employees are stuck in traffic and seems to think it is someone else's problem to fix. They need to take responsibility for their impact on traffic and contribute to the preservation of the environment, instead of destroying it by demanding more roads!

How can I help?
