#### a. California Central Coast Veterans Cemetery Status Report

FORA Principal Analyst Robert Norris provided a status report on recent legislative missions to Washington D.C. and Sacramento which included meetings with the Department of Veterans Affairs and California Department of General Services. They discussed topics related to clarifying the "revertment" language in the transfer agreement and water provisions. Marina Coast Water District will provide a comfort letter confirming that water used in the construction phase will not count against overall the allocation. DVA provided an updated schedule that reflects adjustments in timelines and bidding the project in June. Environmental review is scheduled to conclude by the

August 24<sup>th</sup> federal funding deadline. Committee members thanked the Congressman and Senator for their continuing support.

**b. VA/DoD Veterans Clinic Status Report**

This project is currently in the City of Marina's plan check process. City engineers did not accept the developer submitted schedule and will continue to work with the developer to refine project timing. Tree salvage and removal is expected to begin in May. Sonja Arndt noted the uniqueness of the project as it is the first joint VA/DoD Clinic to be built from the ground up. It will be a state of the art facility with access to many records electronically. Committee members thanked Colonel Fellingner for his support in acquiring a water allocation from the Army.
